INTRODUCTION

This report presents data on Department of Defense (DOD) prime contract awards over \$10,000 for research, development, test, and evaluation (RDT&E) made to educational and non-profit institutions during Fiscal Year (FY) 1982. The data are presented in three tables, each of which lists contractors alphabetically and gives the net value of all awards to the contractor as well as the value of the awards to each of the contractor's locations, where applicable. Table 1 covers awards to educational and other nonprofit institutions in the United States, Table 2 covers awards to U.S. government agencies, and data on awards to foreign institutions and government agencies are provided in Table 3.

NOTES ON COVERAGE

The dollar amounts shown here include prime contract awards over \$10,000 for RDT&E work only. Data on awards for other services, such as training, and on any supplies furnished by the contractor in support of research being done are excluded. Contract awards for civil functions are included in these data. Civil functions encompass planning, programming, designing, constructing, and operating Federal water resources projects for navigation, flood control, hydroelectric power production, water supply, and other related activities.

The locations shown in the tables are the sites where the work was to be performed. Normally, this is a facility of the institution awarded the contract. However, if the work was scheduled to be performed at a Defense facility, such as an Air Force base, the location shown is that of the Defense facility rather than the institution.

HIGHLIGHTS OF FY 1982 DATA

The following table shows the number of institutions receiving contracts and the net value of the awards, by type of institution, for FY 1981 and FY 1982.
